Your Child's Safety Is Our Responsibility

SCHOOL BUS

21

Not knowing Whether Your Child Is Protected Even In Their School Transport

NOW YOU CAN FEEL
CALMED

Because Safety Is Every Student's Rights.

XSSECURE ECOSYSTEM

Xssecure ecosystem is a wholesome security system for schools. Through smart technology, it helps fill the gaps in the bridge of communication between the school, the transport, and the parent- creating a safe passage for children in the most cost-effective way.

LIVE TRACKING

Track your child bus at anytime from anywhere through web and mobile application. Parents can monitor live location, speed of vehicle in different map formats.

LIVE
STREAMING

Parents can monitor live video, speed of the vehicle.

AD-HOC PLANNING

Our system shows parents that how much time vehicle will take to reach at your stoppage/drop point so that you can plan your task accordingly.

AWARE ABOUT YOUR VEHICLE ROUTE

Our system shows complete route of the vehicle by which vehicle has to travel with all stoppages, If you miss something you can easily follow vehicle on the next stop. Also, you can identify route deviation if the driver goes beyond route.

LOCATION BASED ALERTS

Parents can add multiple location alerts depending upon their interest . System will notify them through SMS, email, PUSH that vehicle is approaching to their POI.
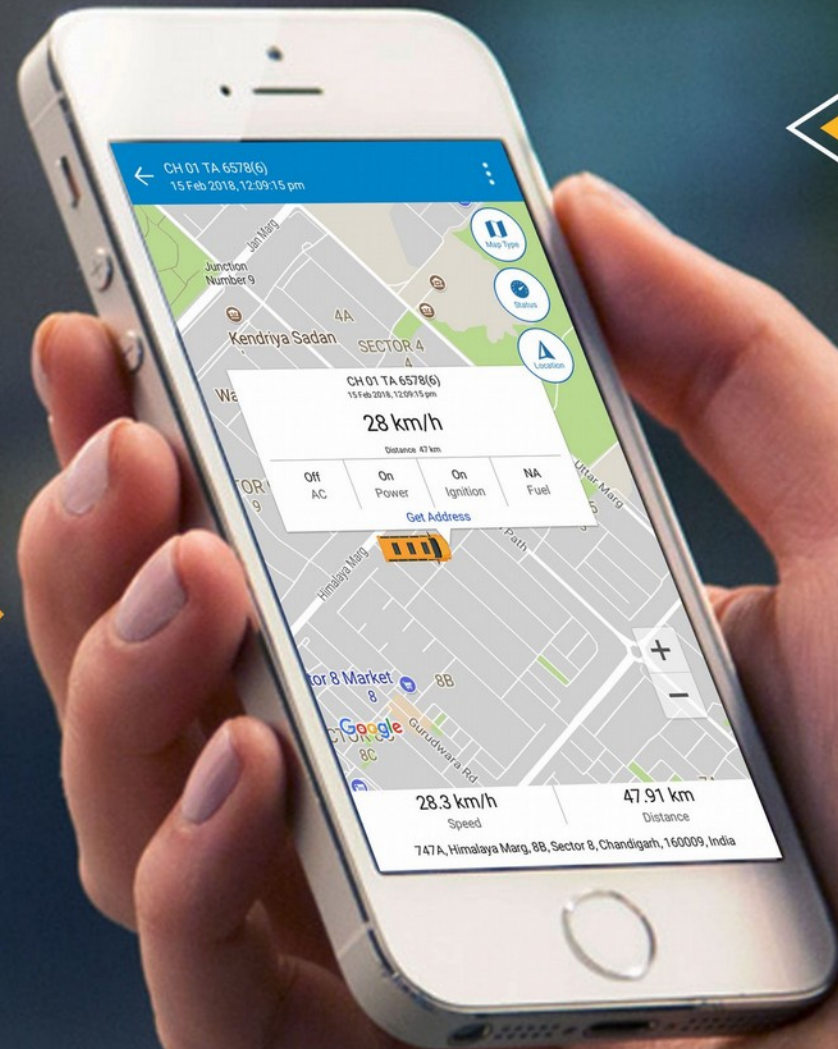

TRACK MULTIPLE VEHICLE

SECURED WAY TO TRACK

Our system also support end user to send request to transport to track vehicle and transport authority has full control to accept and deny request. Until or unless their request is accepted they can not track. Also system can genrate access to pre-authenticated parents from adminstrator panel.

UNLIMITED MESSAGING

School can send any number of push messages with text, image, video, gif, url links to end parents and notify them about events, circulars, Fee reminders.

E-LEAVE
MANAGEMENT

Parents can apply for leave through the application and requested leave is forwarded to the class teacher.

EVENT/
CIRCULARS

School can add circulars and notices that will appear on track dashboard.

CAR POOLING

Parents can pool their car with nearest parent whose child is going to same school. It also helps to reduce traffic as well as cost.

PICK/DROP
MANAGEMENT

Parents can add pickup points and drop points as declared by school according to route.

ON BUS
ATTENDANCE

Parents will be notified in case when child board bus as well as reach school.

SMART
PARENTS
APPLICATION

Application can be used by any parents whether their child is using transport service or not.This application can become an identity for each parent and can be used as the access cards.

WEBSITE INTEGRATION

In app school can directly link their website for more updates about the school.

ONLINE TICKET SYSTEM

In case parents find any issue they can directly generate tickets through an app and web panel.

USER FRIENDLY

The app is having one click enabled tracking and very easy to use.
